

HANDS FREE SOLUTIONS

With recent changes in legislation, and police prosecutions on the increase for use of mobile phones while driving it has never been more important to have a proper permanent hands free kit in your vehicle.

You're not allowed to use a hand held mobile phone while driving - it's as simple as that! In most situations businesses will need to be able to contact their staff at all times.

Rest assured that Midland Magneto stay constantly up to date with all of the latest in technological developments and our newly refurbished on-site store can supply and fit a variety of systems, from simple cradle and microphone kits, to systems which integrate seamlessly with your vehicle's existing electrical systems. You could even bring in your own kit and we'll fit it for you!

Ensure that you and your colleagues enjoy the safety, convenience, service and quality of a hands free solution from Midland Magneto.
