

SOUND & VISION

In Car Entertainment is a real speciality here at Midland Magneto. Quality is the name of the game. Our newly refurbished on-site store can supply and fit a range of head units with speaker systems and amplification to suit your vehicle and your taste in music and your pocket.

Here at Midland Magneto we specialise in leading brand In Car Entertainment Systems, at low cost, as they deliver the quality that our customers expect, but we can source other brands on request.

Our DVD / TV systems will ensure that you never miss out on an all round entertainment experience in your own vehicle.

You can even bring us your own unit and components and let our team of expert fitters make sure that they integrate seamlessly into your vehicle. It will be like the system came pre-installed in your vehicle with a high quality finish and invisible cables.

We'll also be happy to review your power usage to make sure that your vehicle's electrical system and battery will allow you to enjoy the full performance capabilities of your system.
