

SERVICING & MOT'S

Having your vehicle regularly serviced is essential both for both safety and efficiency.

Mechanical and electrical servicing for your vehicles is all part of the Midland Magneto service. We can genuinely claim to be able to take care of your vehicle from the moment you buy it until it's time to sell it.

Supported by the our high tech diagnostic service we can identify problems and faults your vehicles may have and, using the mechanical & electrical experience at Midland Magneto, provide the solutions including mechanical and electrical repairs, supply of replacement parts and safe and secure high quality installation.

As a VOSA authorised MOT Testing Station, Midland Magneto perform MOT tests on most rigid body vehicles and give you an instant computer generated certificate and report.

If you are unfortunate enough to have a vehicle fail the MOT test we will give you a full, detailed report on the reasons for the failure and a quotation for the work required to ensure a pass on a re-test.

Where we complete the repairs, the re-test is normally free of charge.

Whether you have 1 vehicle or a fleet of 200, we can tailor our services to meet your unique requirements taking care of all of your Servicing and MOT needs.
